Other burial grounds may have different charges. Cremation: The price includes the cost cremation at Lincoln crematorium and medical fees. A modern coffin may be supplied for a cremation for an additional fee.</p> <p>Carrying/wheeling the coffin We provide professional pallbearers. Where appropriate, we allow family and friends to assist. When family members assist the applicant must sign an insurance disclaimer on behalf of all helpers.</p> <p>Taking the coffin to the funeral A contemporary hearse is based on a less-formal people carrier. Our (not very) small print and additional costs

The price quoted reflects what people usually choose. The coffin will be taken directly to the burial ground or crematorium. The price does not include a limousine as most families choose to use their own vehicles. If required, a limousine can be provided. (£280 – depending on route)

Viewing loved ones Sometimes families choose to view loved ones at our chapel of rest (a charge of £80 is made for each viewing). We deal with loved ones with utmost respect and care and feel it is not always appropriate to re-dress and artificially enhance their looks with cosmetics and fillers. We know that on some occasions viewing is something families request, and if enhancement is required we can arrange it (£80). Where families request to view loved ones, we prefer they are laid in their coffin as if asleep, covered by a sheet and resting on a pillow.

When families request to view loved ones and our advice (for explainable reasons) is that they don't, we ask they understand and remember them as they were in life.

Hygienic treatment (embalming) is usually not required. If necessary we will ask a family's permission (£125).

Other services We will also discuss with families other aspects such as floral tributes and catering.
